- When you use OneSearch you search everywhere – over 200 databases!
- You'll get a ton of results, and then you'll need to narrow it down using the "filters."

The screenshot shows the OneSearch interface with the search term "nursing records" entered. The results page displays "754,801 Results". On the left, a "Filter my results" sidebar is highlighted with a red box, containing options like "Include items without full text", "Sort by Relevance", "Limit To" (Full Text Online, Peer-Reviewed Journals, Open Access, Currently on Shelf), "Resource Type" (Articles, Book Chapters, Books, Conference Proceedings, Datasets, Show More), "Topic/Subject", and "Author/Creator". A red circle highlights the "754,801 Results" count, with a callout box stating "You may have many results!". Another red circle highlights the "Available Online" link for the first article, with a callout box stating "Use 'FILTERS' to narrow results!".

The screenshot shows a detailed view of an article titled "Childhood-, teenage-, and adult-onset depression: diagnostic and individual characteristics in a clinical sample". The article is by Fernando, Kumari; Carter, Janet D.; Frampton, Christopher M.A.; Luty, Suzanne E.; McKenzie, Janice; Mulder, Roger T.; Joyce, Peter R. It is from Comprehensive Psychiatry, 2011, Vol.52 (6), p.823-829. The page includes options to "Available Online", "EXPORT BIETEX", "EXPORT RIS", "EASYEB", "ENDNOTE", "REFWORKS", "PERMALINK", "PRINT", "CITATION", and "EMAIL". A red box highlights the "New Online" section with the text "Try a link below!" and two links: "Elsevier SD Freedom Collection" (Available from 1995 volume: 36 issue: 1) and "Publicly Available Content Database" (Available from 01/01/2003). A callout box on the right states: "To access the 'full text' of an article or e-book: 1. Click on 'Available Online' 2. On the next page, click any of the links here to get to your article or e-book".
